SUMMARY

B.Sc. IT graduate with hands-on experience in full-stack development using React.js, Next.js, Node.js, Express.js, and TypeScript. Skilled in building responsive interfaces, developing REST APIs, implementing authentication, and designing database-driven applications using SQL and NoSQL databases. Experienced in frontend-backend integration, application debugging, and developing scalable web solutions. Seeking a Full-Stack Developer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++,SQL, HTML5, CSS3
Frontend: React.js, Next.js, Redux, React Hooks, React Router,Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, REST API Development, JWT Authentication, bcrypt, Middleware, API Validation, WebSockets, RBAC
Databases: MySQL, MongoDB, PostgreSQL, Redis
Tools & Platforms: Git, GitHub, Postman, Docker
Currently Learning: Data Structures and Algorithms

PROJECTS

QuickBill – Multi-Tenant Billing & POS Management System 2026
Next.js, TypeScript, Node.js, Express.js, MySQL

- Built a multi-tenant billing and POS application for managing products, inventory, customers, sales, invoices, and business operations.
- Implemented tenant isolation, JWT authentication, bcrypt password hashing, HTTP-only cookies, and RBAC across five roles.
- Developed REST APIs using layered architecture with routes, controllers, services, and middleware for maintainable backend development.
- Implemented transactional checkout with MySQL row locking, stock validation, inventory updates, and historical cost-price tracking.
- Added rate limiting, pagination, debounced search, logging, backup/recovery, and integration tests for reliable operations.

Voya – Travel Booking Platform 2026
React.js, Node.js, Express.js, MongoDB

- Built a full-stack travel booking application with authentication, package browsing, booking workflows, and reviews.
- Developed responsive React interfaces using reusable components, forms, and state-driven rendering.
- Implemented JWT authentication, role-based access control, and protected routes for users and admins.
- Designed REST APIs and MongoDB schemas for bookings, packages, and reviews; integrated frontend and backend using Axios, and debugged API flows with Postman and Browser DevTools.

EDUCATION

Bachelor of Science (B.Sc.) in Information Technology | University of Mumbai 2023 – 2026
CGPA: 8.70

ACTIVITIES

- **Junior Developer, Coding Club** – Contributed to backend development, supported junior members, and participated in coding and problem-solving activities.
